Can you
make it?

Using Materials

Different groups of materials have properties that make them useful for different things. Can you list three materials from each of these groups and give a useful property for each one? We've done one for each group to give you a clue.

Metals

Types	Properties
Iron	Hard

Plastics

Types	Properties
Polyethene	Lightweight

Ceramics / Glass

Types	Properties
Clay	High melting point

Composites

Types	Properties
Concrete	Hard wearing

Fibres

Types	Properties
Wool	Good insulator

Wood

Types	Properties
Cork	Floats on water
